- 12 Product — Email / SMTP settings**
- 13 Product — Forgot password (OTP)**

How to Use This Suite

Execute from the companion Excel ([SmartEPT-Session-Test-Cases-2026-08-12.xlsx](#)) and fill only the yellow columns: **Status** (PASS / FAIL / BLOCKED), **Tested By** (your name), **Remarks** (defect notes or evidence link). The Summary sheet totals itself. **P1 = must pass before deploy sign-off; report any P1 FAIL to Ejaz sir immediately.** P2 = should pass. Pricing cases assume the band configuration stated in their preconditions — re-tune bands back after the re-price test (TC-031).

Pricing — /buy (Perpetual)

TC	Pri	Test case	Steps	Expected result
TC-001	P1	Perpetual price for 5 monitored users	Set Monitored users = 5; read the licence line in the price panel	Licence price shows exactly ₹15,000 (first-band flat (minimum package)); GST 18% on top; total = licence+setup(if ticked)+GST
TC-002	P1	Perpetual price for 10 monitored users	Set Monitored users = 10; read the licence line in the price panel	Licence price shows exactly ₹15,000 (first-band flat); GST 18% on top; total = licence+setup(if ticked)+GST
TC-003	P1	Perpetual price for 15 monitored users	Set Monitored users = 15; read the licence line in the price panel	Licence price shows exactly ₹15,000 (milestone exact); GST 18% on top; total = licence+setup(if ticked)+GST
TC-004	P1	Perpetual price for 16 monitored users	Set Monitored users = 16; read the licence line in the price panel	Licence price shows exactly ₹15,667 (15,000 + 1×(10,000/15), single final round); GST 18% on top; total = licence+setup(if ticked)+GST
TC-005	P1	Perpetual price for 30 monitored users	Set Monitored users = 30; read the licence line in the price panel	Licence price shows exactly ₹25,000 (milestone exact); GST 18% on top; total = licence+setup(if ticked)+GST
TC-006	P1	Perpetual price for 31 monitored users	Set Monitored users = 31; read the licence line in the price panel	Licence price shows exactly ₹25,750 (25,000 + 1×750); GST 18% on top; total = licence+setup(if ticked)+GST
TC-007	P1	Perpetual price for 41 monitored users	Set Monitored users = 41; read the licence line in the price panel	Licence price shows exactly ₹33,250 (25,000 + 11×750); GST 18% on top; total = licence+setup(if ticked)+GST

TC	Pri	Test case	Steps	Expected result
TC-008	P1	Perpetual price for 50 monitored users	Set Monitored users = 50; read the licence line in the price panel	Licence price shows exactly ₹40,000 (milestone exact); GST 18% on top; total = licence+setup(if ticked)+GST
TC-009	P1	Perpetual price for 51 monitored users	Set Monitored users = 51; read the licence line in the price panel	Licence price shows exactly ₹40,400 (40,000 + 1×400); GST 18% on top; total = licence+setup(if ticked)+GST
TC-010	P1	Perpetual price for 61 monitored users	Set Monitored users = 61; read the licence line in the price panel	Licence price shows exactly ₹44,400 (40,000 + 11×400); GST 18% on top; total = licence+setup(if ticked)+GST
TC-011	P1	Perpetual price for 100 monitored users	Set Monitored users = 100; read the licence line in the price panel	Licence price shows exactly ₹60,000 (milestone exact); GST 18% on top; total = licence+setup(if ticked)+GST
TC-012	P1	Perpetual price for 101 monitored users	Set Monitored users = 101; read the licence line in the price panel	Licence price shows exactly ₹60,300 (60,000 + 1×300); GST 18% on top; total = licence+setup(if ticked)+GST
TC-013	P1	Perpetual price for 150 monitored users	Set Monitored users = 150; read the licence line in the price panel	Licence price shows exactly ₹75,000 (milestone exact); GST 18% on top; total = licence+setup(if ticked)+GST
TC-014	P1	Perpetual price for 151 monitored users	Set Monitored users = 151; read the licence line in the price panel	Licence price shows exactly ₹75,300 (75,000 + 1×300); GST 18% on top; total = licence+setup(if ticked)+GST
TC-015	P1	Perpetual price for 160 monitored users	Set Monitored users = 160; read the licence line in the price panel	Licence price shows exactly ₹78,000 (75,000 + 10×300); GST 18% on top; total = licence+setup(if ticked)+GST
TC-016	P1	Perpetual price for 175 monitored users	Set Monitored users = 175; read the licence line in the price panel	Licence price shows exactly ₹82,500 (75,000 + 25×300); GST 18% on top; total = licence+setup(if ticked)+GST
TC-017	P1	Perpetual price for 199 monitored users	Set Monitored users = 199; read the licence line in the price panel	Licence price shows exactly ₹89,700 (75,000 + 49×300); GST 18% on top; total = licence+setup(if ticked)+GST
TC-018	P1	Perpetual price for 200 monitored users	Set Monitored users = 200; read the licence line in the price panel	Licence price shows exactly ₹90,000 (milestone exact); GST 18% on top; total = licence+setup(if ticked)+GST
TC-019	P1	201+ users = Custom Quote, never a price	Set users = 201, then 500	Panel shows 'Custom quotation', Pay button disabled → 'Contact us for a custom quote'; NO amount displayed; order POST returns 422

TC	Pri	Test case	Steps	Expected result
TC-020	P1	Below configured minimum blocked	Set users = 4	Panel/submit shows 'Minimum On-Premise licence capacity is 5 users.'; Pay disabled; order POST returns 422
TC-021	P1	Backend is the price authority	Tamper the JS-displayed price, submit the buy form for 61 users, inspect the created order in Central admin	Order line = ₹44,400 (server-priced); tampered figure ignored
TC-022	P2	Setup fee scales per user	Tick Remote Assisted Setup at 61 users, then 30 users	Setup = ₹8,100 at 61 (5,000 + 31×100); ₹5,000 at 30 (covered)
TC-023	P2	USD mode display	Pick 61 users perpetual	Price converts at admin USD rate; GST shows 'export (0%)'

Pricing — Trial/Sign-up page

TC	Pri	Test case	Steps	Expected result
TC-024	P2	Sign-up page calculator matches /buy	Set 61 users, Perpetual	Shows ₹44,400 — identical to /buy
TC-025	P1	Trial account NOT created before OTP	Fill trial form → 'request OTP' → do NOT verify; check Central admin Trials/Tenants	OTP email received; NO tenant/user exists yet
TC-026	P1	Wrong OTP rejected, right OTP creates trial	Submit wrong 6-digit code, then the correct one	Wrong → 'code is wrong or expired', nothing created; correct → tenant status=trial + portal user created, auto-login
TC-027	P2	Honeypot blocks bots silently	Submit trial step 1	Fake success message, NO OTP issued, no email sent

Pricing — Client portal

TC	Pri	Test case	Steps	Expected result
TC-028	P1	Portal buy panel uses server quote	Pick Perpetual, 61 users	Quote lines from server show ₹44,400 licence; totals include GST

TC	Pri	Test case	Steps	Expected result
TC-029	P1	Portal custom-quote count	Set 250 users Perpetual	Server message 'For more than 200 users, please request a custom quotation.' — no price, no order
TC-030	P2	Portal below-minimum count	Set 3 users Perpetual	422 'Minimum On-Premise licence capacity is 5 users.'

Pricing — Landing page

TC	Pri	Test case	Steps	Expected result
TC-031	P1	Landing slider interpolates like /buy	Drag slider to 41, 47, 61	₹33,250 · ₹37,750 · ₹44,400 — matches /buy exactly
TC-032	P2	Landing above top milestone	Drag past 200	'Custom quotation' + WhatsApp contact button; no price
TC-033	P2	Hero price = first-band (minimum package) price	Read hero price figure	Equals the configured first-band price (₹15,000 with example bands)

Admin — Pricing band editor

TC	Pri	Test case	Steps	Expected result
TC-034	P1	Overlap rejected	Save bands 5–15 and 10–30	422 'Bands must not overlap or duplicate...'; nothing saved
TC-035	P1	Gap rejected	Save bands 5–15 and 20–30	422 'No gaps allowed... next must start at 16'
TC-036	P1	Decreasing milestone price rejected	Save 5–15 ₹15,000 then 16–30 ₹12,000	422 'Milestone prices must not decrease...'
TC-037	P1	Open-ended band only last	Put a blank-Max band before a priced band	422 'Only the final band may be open-ended...'
TC-038	P1	Priced band needs positive price	Save a band with price 0	422 'Every automatically priced band needs a positive milestone price...'
TC-039	P1	Open band saves as Custom Quote (price NULL)	Add final band Min 201, Max blank; Save; reload	Price input disabled showing 'Custom Quote'; DB price_inr NULL (never 0)

TC	Pri	Test case	Steps	Expected result
TC-040	P2	Re-price is fully dynamic	Change 101–150 to ₹80,000 and 151–200 to ₹1,00,000; Save; wait ≤5 min; check /buy at 151	₹80,400 (80,000 + 1×400) — no code change needed; revert bands after test
TC-041	P2	Column heading + note updated	Read the editor	Heading '₹ price at Max users (milestone)'; note 'Prices between user milestones are calculated proportionately...'

Admin — Delete controls

TC	Pri	Test case	Steps	Expected result
TC-042	P1	Delete a quote with ₹0 received	Find a test quote (received 0, no licence) → red Delete → confirm	Row gone; its unpaid invoice (if any) gone; Audit Log shows order.deleted
TC-043	P1	Money-bearing order can NEVER be deleted	Attempt DELETE (via UI absence / direct API) on an order with any payment recorded	No Delete link shown; direct API returns 422 'money-bearing orders can never be deleted'
TC-044	P1	Licence-linked order blocked	Attempt delete on an order linked to a licence	Blocked with licence-key message
TC-045	P1	Invoice delete warns about FY gap	Click Delete on a test invoice; read the confirm; accept	Warning mentions permanent FY-series numbering gap; row deleted; audit invoice.deleted
TC-046	P2	Non-super roles see no Delete	Open Orders & Invoices screens	No red Delete links anywhere; DELETE APIs return 403
TC-047	P2	Credit Clients rows unaffected	Verify the 3 outstanding-balance rows	Still listed (they have money → protected); Record balance/Pay link work

Buy page — Coupon visibility

TC	Pri	Test case	Steps	Expected result
TC-048	P1	Disabled coupon hides the box	Hard refresh /buy	No 'Coupon code' field anywhere; page JS error-free (console clean)

TC	Pri	Test case	Steps	Expected result
TC-049	P1	Enabling the coupon restores the box	Reload /buy	Coupon field back; applying WINTER26 gives 15% off (≥10 devices condition respected)
TC-050	P2	Expired/used-up coupons count as not live	Reload /buy	Box hidden again
TC-051	P2	Disabled code rejected server-side regardless	POST coupon-check with WINTER26	'not valid (inactive)' — no discount applied

Central — Dunning fix (live)

TC	Pri	Test case	Steps	Expected result
TC-052	P1	smartept:dunning runs clean	php artisan smartept:dunning	Exit 0; no SQLSTATE 1265; log shows 'Purged (closed out): ...' for tenant #7
TC-053	P1	tenants.status accepts 'purged'	SHOW COLUMNS FROM tenants LIKE 'status'	Type VARCHAR(20), default 'trial'; tenant #7 status='purged'
TC-054	P2	Hourly scheduler stays clean	Check laravel.log + System Health Recent errors	No new dunning errors; Recent errors count drops

Central — Branding & misc

TC	Pri	Test case	Steps	Expected result
TC-055	P2	No ™/® anywhere	Read the footers	'SmartEPT · Developed by Ametecs India Private Limited · © 2026. All rights reserved.' — no ™/®; © intact
TC-056	P1	Licence signing key live after pull	Re-run System Health; issue a test .lic from a licence card	'Licence signing key' check green; .lic file generates and imports in a product install
TC-057	P1	Hosted-console link green	Re-run System Health; provision a test cloud tenant	Check green; tenant console created at admin.smartept.com/; SSO one-click works

TC	Pri	Test case	Steps	Expected result
TC-058	P2	WhatsApp (Interakt) active	Re-run System Health; send a template test to own number	Check green; message delivered

Product — Login & seeder fix

TC	Pri	Test case	Steps	Expected result
TC-059	P1	Fresh seed logins work	Login super@smartept.io / password at smartept.test/admin	Login succeeds (double-hash bug fixed). NEVER run fresh-seed on live.
TC-060	P1	Tinker unlock for existing installs	Run the forceFill tinker one-liner; login with the new password	Login succeeds; then change the password from the UI immediately
TC-061	P1	All seeded live passwords changed	Verify super@smartept.io + admin/manager/hr/compliance@ameteecs.io no longer use 'password'	Old password rejected for every account

Product — Email / SMTP settings

TC	Pri	Test case	Steps	Expected result
TC-062	P1	Super sees both sections	Open Ops	'Global default relay' section visible (+ company section only when super belongs to a company)
TC-063	P1	Company admin sees only company section	Open Ops	Company SMTP section visible; global section absent; other roles see no card at all
TC-064	P1	Save global relay + test	Fill host/port/user/password/from → Save → Send test email	'✓ Saved'; test lands in super's inbox; wrong password shows the relay's real error

TC	Pri	Test case	Steps	Expected result
TC-065	P1	Company relay used for company mail	Trigger a mail for that company's user (e.g. forgot-password OTP)	Email arrives via the company relay with company From; mail_logs row status=sent
TC-066	P1	Fallback to global when no company SMTP	Trigger the same company mail	Sent via global relay (override removed); mail_logs sent
TC-067	P2	Password never echoed; blank keeps saved	Reload after save; save again with blank password	Password field empty with 'saved — type only to replace'; old password still works
TC-068	P2	Saves audit-logged	Search SETTINGS_MAIL	SETTINGS_MAIL_GLOBAL_UPDATE / _COMPANY_UPDATE rows with actor + host

Product — Forgot password (OTP)

TC	Pri	Test case	Steps	Expected result
TC-069	P1	Link and flow visible	Click 'Forgot password?'	Panel opens: 'Email me a reset code' → after send, OTP + new-password fields appear
TC-070	P1	Unknown email = neutral answer	Request code for a non-existent email	Same 'If that email has an account...' message; NO email sent; no account disclosure
TC-071	P1	OTP arrives and resets password	Request code; enter it + new password (≥8); sign in with the new password	Reset succeeds; old password dead; must_change_password cleared; audit rows present
TC-072	P1	Wrong OTP limited to 5 attempts	Enter wrong codes 5 times, then the right one	After 5 fails the code is dead ('expired — request a new one'), right code no longer works
TC-073	P2	Code expires after 10 minutes	Wait >10 min, then enter it	'That code has expired — request a new one.'

TC	Pri	Test case	Steps	Expected result
TC-074	P2	Short password rejected	Try a 5-character password	Validation error min 8; OTP still usable
TC-075	P1	Employee accounts can reset too	Full flow from the employee's login	Works identically; employee portal opens after
TC-076	P2	Branded slug page stays tenant-locked	Request reset for the A user from B's page	Neutral message but NO code issued (workspace mismatch)
TC-077	P2	Request throttle	Request codes 6+ times within a minute	429 after the 5th; resumes next minute
